Bucket Trucks Safely Clearing The Way

BUCKET TRUCK ESCORTS

TRANSPORTATION MANAGEMENT

CONSTRUCTION, REPAIR, & MAINTENANCE

Leaders in Bucket Truck Escorts

Formed in the greater Houston area in early 2015, VersaBucket, LLC is a transportation services company specializing in bucket truck escorts of oversized loads. With over 20 years of combined service and expertise, our founders wanted to provide a better solution for the industry while providing superior customer service.

As a part of our service, we provide a team of safety-conscious utility truck operators that are highly trained and uniquely qualified in escorting oversized loads. Our rigorous training program and experience in oversized high-load transports allows us to offer your company a safe, unique, and cost-effective solution.

Our Commitment

We have the unique advantage of viewing a project from the same vantage point as our clients. We've managed the permit process, updated clients on project progression, coordinated transportation support activities, and delivered numerous pieces safe and on schedule. As a company, we pride ourselves in quality service, customer satisfaction, and the safe movement of your cargo. We'll be there to support your needs from the initial route study to the final delivery of your cargo.

Our Service

We lead the way by clearing your overhead obstructions, and are capable of wire-skidding your loads, assisting with traffic control, handling traffic signals, street lights, wires, cables, road signs and any other overhead roadside hazards to your cargo. We send our bucket truck escorts to meet your load at its point of origin and accompany it to its final destination. We are available for short hauls as well as long hauls across numerous states. We are able to provide our services within the continental United States. Our fleet of trucks is available 24/7 day and night.

INNOVATION

State-of-the-art transportation solutions and logistics on every job.
